LeetCode

SUMMARY

Java full-stack developer who turns ideas into scalable, production-ready applications - from robust Spring Boot backends to responsive React frontends. Backed by a strong DSA foundation and hands-on exposure to AI/ML and GenAI, with a drive to build solutions that are clean, efficient, and impactful.

EDUCATION

Dr. B. C. Roy Engineering College

B.Tech in Computer Science and Engineering - CGPA - 7.86 (upto 5th Sem)

Aug 2023 – Present

Durgapur, West Bengal

Sree Ayyappa Public School

Higher Secondary - CBSE - Percentage - 84.8%

2019 – 2021

Bokaro Steel City, Jharkhand

Sacred Heart School

Secondary - ICSE - Percentage - 93%

2019

Purulia, West Bengal

TECHNICAL SKILLS

- **Languages & Frameworks:** Java, Python, JavaScript, C, SQL, React.js, Spring Boot, Spring MVC, Spring AI, Hibernate, Maven, REST APIs
- **Databases & Tools:** MySQL, MongoDB, PostgreSQL, Git, GitHub, Docker, Linux, AWS, Postman, IntelliJ IDEA, VS Code
- **Data, ML & GenAI:** NumPy, Pandas, Scikit-learn, Tableau, OpenCV, RAG, Prompt Engineering

PROJECTS

Online Exam System | React, Node.js, Convex Cloud

Jan 2026

- Built a full-stack exam platform with teacher-managed exams, secure student access via unique links, and **auto-grading with cloud-native backend** using Convex Cloud for auth, data management, and proctoring logs.
- Implemented **real-time webcam-based proctoring** with rule-based violation detection and automatic submission after 3 violations, reducing malpractice risk significantly.

Collab Hub | HTML, CSS, Node.js, Socket.IO, MongoDB

Nov 2025

- Developed a **unified real-time collaboration platform** integrating code sharing, whiteboard, flowchart design, file sharing, and AI-assisted group chat within a single workspace.
- Implemented **multi-user live synchronization** via Socket.IO and scalable MongoDB backend for persistent storage of workspace data, shared files, and chat logs.

AbhiSwaad | Java, Spring Boot, Spring AI, Supabase

Oct 2025

- Built a full-stack food ordering system with **Spring Boot REST APIs** enabling users to browse restaurants, manage cart, apply coupons, and place orders with automated PDF bill generation.
- Integrated **Spring AI for smart menu recommendations** and Supabase for scalable data management of users, orders, and restaurant inventory with secure session handling.

INTERNSHIP

CodSoft

May 2026 – June 2026

Java Programming Intern

Remote

- Built **5 project-based Java applications** covering real-time API integration, OOP design patterns, input validation, and interactive UI, gaining hands-on exposure to core Java development workflows.

ACHIEVEMENTS & CERTIFICATIONS

- **Generative AI — Google Cloud (Coursera)** — Completed foundational course covering core GenAI concepts, LLMs, responsible AI principles, and real-world industry applications.
- **HackZenith Hackathon — Top 10** — Secured Top 10 position among 150+ competing teams, building and presenting a working solution under time constraints.
- 150+ Problems Solved on [LeetCode](#)
